Portfolio : <https://iamkeo-portfolio.netlify.app/>

Dedicated individual with proven communication, organizational skills, with a flair for writing clear, concise, robust code that works. I like creating products that either have fun and nifty features or solve a genuine problem for people

SKILLS

- Proficient in Microsoft Office (Word, Excel).
- Data Handling & Computation.
- Organized and attentive to detail.
- HTML/CSS, JavaScript, ReactJs.
- Leadership & Team Work.
- Management and training.
- GitHub

CERTIFICATIONS

- Responsive Web Design, *FreeCodeCamp* (INVIEW)
- JavaScript Algorithms and Data Structure, *FreeCodeCamp* (INVIEW)

EXPERIENCE

Huescape

Jan 2022 – Till Date

Frontend Developer

Projects

- **DevKeo Blog** [github](#) | [live demo](#) : A blog app built using nextjs for client side rendering, GraphQL for API calls and Hygraph (formerly GraphCMS) for serverless backend functionality. Implemented comments approval by admin, posts can easily be created and added to the blog using hygraph flexible CMS.
- **Dunes** [github](#) | [live demo](#) : An e-commerce store built with nextjs and sanity. Content of the store was managed with sanity, react context API was used to manage global state.
- **Tesla Clone** [github](#) | [live demo](#) : Recreated Tesla Landing page using ReactJs and Tailwind CSS. Animate On Scroll was used for animation, ES6 ternary operator, map was used to implement conditional rendering of element and React's useState hook was used to manage component state.
- **Feedback** [github](#) | [live demo](#) : Feedback web app created using react. Framer motion was used for animation, fetched and populated data from a local file using useContext, set up react-router for navigation between about and home page, set up basic functionality such as delete, edit of feedback data submitted.

- **Clothing Store** [github](#) | [live demo](#) : An e-commerce clothing store built with pure CSS and JavaScript. It has create, read, update and delete functionality which was implemented using vanilla JavaScript functions.

Gadholchen Nigeria Limited, Lagos

Dec 2020 –Jul 2021

Junior Construction Manager

- Managed diverse team of ironworkers, apprentices, carpenters, concrete laborers, general laborers, joiners, framers, roofers, and other skilled and unskilled tradesmen.
- Planned, coordinated and supervised construction projects of buildings.
- Supervised 7+ building projects of various sizes in residential and commercial areas.
- Monitored construction projects on-site and made daily decisions about construction activities.
- Met all given construction project deadlines and budget limitations.
- Assisted the construction site manager in certain areas of supervision, from liaising with architects and engineers to coordinating with surveyors and site owners.
- Responded to on-site emergencies professionally and efficiently.

Achievement(s)

- Cut costs by over 20% on 5 different building projects.

Ray'Em Photography

Aug 2020 – Nov 2020
